Bachelor of Science in Business Administration, Management Information Systems & Finance GPA: 3.75

EXPERIENCE

Uplifty AI | Remote Nov 2025 – Jan 2026
Product Management Intern

- Collaborated with engineering, design, and marketing teams across weekly agile sprints to prioritize 20+ user stories and support feature delivery from product discovery to App Store release.
- Executed QA and regression testing across development, testing, staging, and production environments, validating 50+ test cases and tracking 30+ bugs weekly in Jira to support product stability, data integrity, and App Store compliance.
- Led 3+ daily team meetings, including mob programming sessions and all-hands meetings to showcase weekly sprint progress and stakeholder demos, improving alignment across cross-functional teams.

Amazon DSP | New Windsor, NY Jun 2023 – Aug 2024
Process Assistant

- Coordinated dispatch operations and resolved critical workflow disruptions by reallocating labor resources across teams of 50+ associates to maintain optimal operational flow and prevent downtime.
- Supported onboarding and training for new hires during peak season, contributing to improved ramp-up efficiency and maintaining daily operation targets exceeding 35,000+ packages.
- Monitored workflow metrics including stow rates, scan accuracy, and time-off-task across daily dispatch operations handling 100+ delivery routes, identifying performance deviations and escalating operational insights to area managers.

PROJECTS

Profitability & Credit Risk Analysis | Academic | Buffalo, NY Jul 2025
Financial Analyst [ratio analysis, dupont analysis, financial modeling, microsoft excel, business reporting]

- Conducted comparative financial analysis of Nike and Under Armour using 5+ years of SEC 10-K data, applying DuPont decomposition to identify key profitability drivers and investment attractiveness.
- Built a multi-metric credit risk and valuation framework using 5+ financial ratios (liquidity, solvency, coverage) and Altman Z-Score modeling to evaluate financial stability and support a clear investment recommendation between the two companies.

Quantum Retail Data Analysis | Independent | Forage.com Jun 2025
Data Analyst [R programming, exploratory data analysis, data visualization, customer segmentation, data cleaning]

- Performed end-to-end data analysis, including data cleaning, exploration, and customer segmentation, identifying a top segment contributing \$147K+ in sales across 7,900+ customers, supporting targeted marketing and product positioning.
- Evaluated trial store performance by identifying benchmark control stores and analyzing the impact of new trial layouts, providing data-driven recommendations on whether to roll out changes across all locations.

Marketplace Business Simulation | Academic | Buffalo, NY Feb 2025 - Apr 2025
Business Strategy Lead [budget allocation, demand forecasting, KPI tracking, competitive positioning, collaboration]

- Led a virtual company to 1st place among 5 competitors by optimizing 4+ business functions and making quarterly strategic decisions across 4+ KPIs, adapting pricing, budgeting, and operations to changing market conditions.
